Knowledge Co-Creation Program  
(Group & Region Focus)

GENERAL INFORMATION ON  
Regulatory Systems on Ensuring Access to Quality Medicines  
課題別研修「適正な医薬品の供給・品質管理・使用に向けた薬事行政」  
JFY 2018  
NO. J18-04225 / ID. 1884415  
Course Period in Japan: From July 8, 2018 to August 11, 2018

This information pertains to one of the JICA Knowledge Co-Creation Program (Group & Region Focus) of the Japan International Cooperation Agency (JICA), which shall be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

‘JICA Knowledge Co-Creation (KCC) Program’ as a New Start  
In the Development Cooperation Charter which is released from the Japanese Cabinet on February 2015, it is clearly pointed out that “In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.” We believe that this ‘Knowledge Co-Creation Program’ will serve as a center of mutual learning process.
I. Concept

Background

‘Ensuring Access to Quality Medicines’ is the essential element to strengthen health system, to improve the basic health services, and to realize universal health coverage (UHC).

However when a pharmaceutical regulatory system (authorization, post-marketing surveillance, inspection, etc.) is insufficient, there are many difficulties in implementing proper production and sales distribution. In such circumstances, the safety, efficacy and quality of medicine is not assured. Distributed Substandard and falsified medicine is prevalent example of the problem that may spread Antimicrobial resistant (AMR) which threatens people’s health and public health services eventually. Therefore, it is one of the top priorities of the international cooperation to establish functional pharmaceutical regulatory systems in the world.

In this program, participants will learn 1) regulatory related systems on pharmaceuticals, 2) supply chain systems for quality assured medicines through lectures, and site-visits. Also, participants are expected to analyze the country’s prioritized issues and discuss the applicable measurements for improving proper access to quality medicines in their own countries.

For what?

This program is intended to help participants’ organization (national pharmaceutical regulatory authorities and/or tertiary level hospitals) to enhance its capacity for ensuring proper access to quality assured medicines.

For whom?

This program is offered to the following (1) or (2):
(1) Government officials who are engaged in making policies on pharmaceutical affairs and/or planning/implementation of pharmaceutical regulatory services, or
(2) Senior pharmacists of tertiary level hospital, who are engaged in management of supply and rational use of medicines and human development. It is required that he/she is a director of pharmaceutical department or equivalent, who has a responsibility of collaboration with national pharmaceutical regulatory authorities and its relevant agencies.

How?

Participants shall have following opportunities in Japan to ensure program effectiveness.
1. Lectures on an overview of health system in Japan including pharmaceutical legislation and administration
2. Observations and site visits to local governments, pharmaceutical production companies, hospitals, research institute, and pharmacy
3. Discussions with Japanese/international experts and participants
4. Development and presentation of reports

JICA and Capacity Development

The key concept underpinning JICA operations since its establishment in 1974 has been the conviction that “capacity development” is central to the socioeconomic development of any country, regardless of the specific operational scheme one may be undertaking, i.e. expert assignments, development projects, development study projects, training programs, JOCV programs, etc.

Within this wide range of programs, Training Programs have long occupied an important place in JICA operations. Conducted in Japan, they provide partner countries with opportunities to acquire practical knowledge accumulated in Japanese society. Participants dispatched by partner countries might find useful knowledge and re-create their own knowledge for enhancement of their own capacity or that of the organization and society to which they belong.

About 460 pre-organized programs cover a wide range of professional fields, ranging from education, health, infrastructure, energy, trade and finance, to agriculture, rural development, gender mainstreaming, and environmental protection. A variety of programs and are being customized to address the specific needs of different target organizations, such as policy-making organizations, service provision organizations, as well as research and academic institutions. Some programs are organized to target a certain group of countries with similar developmental challenges.

Japanese Development Experience

Japan was the first non-Western country to successfully modernize its society and industrialize its economy. At the core of this process, which started more than 140 years ago, was the “adopt and adapt” concept by which a wide range of appropriate skills and knowledge have been imported from developed countries; these skills and knowledge have been adapted and/or improved using local skills, knowledge and initiatives. They finally became internalized in Japanese society to suit its local needs and conditions.

From engineering technology to production management methods, most of the know-how that has enabled Japan to become what it is today has emanated from this “adoption and adaptation” process, which, of course, has been accompanied by countless failures and errors behind the success stories. We presume that such experiences, both successful and unsuccessful, will be useful to our partners who are trying to address the challenges currently faced by developing countries.

However, it is rather challenging to share with our partners this whole body of Japan’s developmental experience. This difficulty has to do, in part, with the challenge of explaining a body of “tacit knowledge,” a type of knowledge that cannot fully be expressed in words or numbers. Adding to this difficulty are the social and cultural systems of Japan that vastly differ from those of other Western industrialized countries, and hence still remain unfamiliar to many partner countries. Simply stated, coming to Japan might be one way of overcoming such a cultural gap.

JICA, therefore, would like to invite as many leaders of partner countries as possible to come and visit us, to mingle with the Japanese people, and witness the advantages as well as the disadvantages of Japanese systems, so that integration of their findings might help them reach their developmental objectives.
Guidelines of Application Form for the JICA Training and Dialogue Program

The attached form is to be used to apply for the training and dialogue programs of the Japan International Cooperation Agency (JICA), which are implemented as part of the Official Development Assistance Program of the Government of Japan. Please complete the application form while referring to the following and consult with the respective country's JICA Office or the Embassy of Japan if the former is not available in your country for further information.

1. Parts of Application Form to be completed

1) Which part of the form should be submitted?
It depends on the type of training and dialogue program you are applying for.

> Application for Group and Region Focused Training Program
Official application and Parts A and B including Medical History and Examination must be submitted.

>> Application for Country Focused Training Program including Counterpart Training Program
Part B including Medical History and Examination will be submitted. Official application and Part A need not to be submitted.

2) How many parts does the Application Form consist of?
The Application Form consists of three parts as follows;

<table>
<thead>
<tr>
<th>Official Application</th>
</tr>
</thead>
<tbody>
<tr>
<td>This part is to be confirmed and signed by the head of the relevant department/division of the organization which is applying.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Part A. Information on the Applying Organization</th>
</tr>
</thead>
<tbody>
<tr>
<td>This part is to be confirmed by the head of the relevant department/division of the organization which is applying.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Part B. Information About the Nominee including Medical History and Examination</th>
</tr>
</thead>
<tbody>
<tr>
<td>This part is to be completed by the person who is nominated by the organization applying. The applicants for Group and Region Focused Training Program are required to fill in every item. As for the applications for Country Focused Training Program including Counterpart Training Program and some specified International Dialogue Programs, it is required to fill in the designated “required” items as is shown on the Form.</td>
</tr>
</tbody>
</table>

Please refer to the General Information to find out which type the training and dialogue program that your organization applies for belongs to.

2. How to complete the Application Form
In completing the application form, please be advised to:
(a) carefully read the General Information (GI) for which you intend to apply, and confirm if the objectives and contents are relevant to yours,
(b) be sure to write in the title name of the course/seminar/workshop/project accurately
according to the GI, which you intend to apply,
(c) use a typewriter/personal computer in completing the form or write in block letters,
(d) fill in the form in English,
(e) use √ or ☐ to fill in the ( ) check boxes,
(f) attach a picture of the Nominee,
(g) attach additional page(s) if there is insufficient space on the form,
(h) prepare the necessary document(s) described in the General Information (GI), and attach it (them) to the form,
(i) confirm the application procedure stipulated by your government, and
(j) submit the original application form with the necessary document(s) to the responsible organization of your government according to the application procedure.

Any information that is acquired through the activities of the Japan International Cooperation Agency (JICA), such as the nominee’s name, educational record, and medical history, shall be properly handled in view of the importance of safeguarding personal information.

3. Privacy Policy

1) Scope of Use
Any information used for identifying individuals that is acquired by JICA will be stored, used, or analyzed only within the scope of JICA activities. JICA reserves the right to use such identifying information and other materials in accordance with the provisions of this privacy policy.

2) Limitations on Use and Provision
