VI Year-Long Schedule
I INFORMATION CONCERNING THE RECRUITMENT OF STUDENTS

1 Number of Participants

There are five different courses available to students, and each course will accept from 10 to 20 students at the maximum, and for a total of 60 students in a program.

2 Matters to be Attended for Eligibility and Application

a Applicants must have graduated a university with excellent grades and be eligible to study in Japan for one year.

b Applicants must meet all qualifications stated in the entrance requirements. Please observe the requirements strictly.

c The number of students we allow into this program is kept down to a minimum. All candidates for this program will be evaluated relatively. Therefore, candidates who meet all qualifications still might not be selected (It is also possible that none of the candidates from your institution will be selected.). Take this point into consideration when recommending candidates.

d Some students in the past gave up studying in the middle of the program due to mental and physical problems. Please take into consideration the fact that the environment of Japan might be different from that of the applicants home country. Therefore, the applicants medical examination records and records of previous illness must be carefully reviewed.

e Remember that the number of participants and treatment of the students could differ from this document due to Japanese financial difficulties.

f Military personnel and military civilian employees registered on the active list are excluded from participation.

3 Notice Period and Method

Each institution can decide how to notify students about recruitment for this Scholarship. However, recruitment must be done in an effective way in order to guarantee that outstanding students are selected.

Application materials may be mailed from the Embassy of Japan, or can be downloaded from the English website of MEXT (http://www.mext.go.jp/english/highered/1304786/htm).

In addition, applicants should be notified to seek information about the accepting universities through their brochures or homepages (See the application material for the URL).

4 Acceptance of Application Forms

Applicants must observe the application period strictly and submit the necessary number of documents (including copies of documents.). It must be verified whether or not all applications are completed fully and correctly and if they lack any necessary documents. Students will be asked to make corrections on their application if problems are found. After corrections are made, the forms will, once again, be accepted. The following matters concerning acceptance need to be considered:

(1) The language used and the attached translation

Documents must be written in English. Attach an English translation if they are written in another language.

(2) Applications

a Each year's prescribed forms must be used to apply. Fill out the forms clearly (especially applicants name) and put each application form and all other necessary documents in an envelope which is designated by MEXT.

b Academic Record In the spaces designated for:

1) elementary education
2) secondary education
3) higher education
Please write the names of the schools or institutions that you attended which correspond to the Japanese education system of:

1) elementary school
2) junior/senior school
3) undergraduate/graduate university

* Caution: Write the exact number of years which the applicant was enrolled in each institution. If an applicant skipped a year in any schools or institution, it must be mentioned.

(3) Reasons for applying and future plans

The essay concerning the applicants reason for applying as well as future plan after the completion of YLP must be explained concretely and specifically within three pages or so.

(4) Transcript of last attended institution

A transcript of all credited courses taken every year in the students undergraduate or graduate university is necessary. (Neither a certificate of degree nor a diploma showing what ranking the student received when the applicant graduated will be considered as a transcript. The system of grading/evaluation should be clearly written out on the transcript.)

(5) Certificate of graduation (Attach an English translation)

Any of the following can be submitted: A certificate of graduation of the last attended institution, a certificate of university entrance qualification (For example a certificate showing you took the High School Equivalency Exam) and a certificate of degree (can be a copy of diploma).

(6) Medical certificate

Students must use the designated form and fill out (or have the doctor fill out) all that is required. Recommending institutions must assign medical institutions for the physical examination. Regarding previous illness, for example tuberculosis, mental disease, etc., please pay attention to the fact that some students become sick after coming to Japan even though they didn't state any problems beforehand. Consider this point carefully when recommending institutions interview applicants. If candidates are disabled and need special care, it must be mentioned in the recommendation letter.

(7) Incomplete application forms

Application forms which are not completed fully and correctly or that are lacking necessary documents will not be accepted.

If applicants cannot get the necessary documents because of their countries condition: certificates confirmed by the issuing authority, the government in their home country, or Embassy of Japan can be used instead.

5 Conditions for Recruitment

Applicants must follow all application requirements. Personal exceptions will not be admitted.

6 Applicants Staying in Japan

Applicants residing in their own country have first priority. However, if a student is already staying in Japan for some reason (except for those studying in Japan privately) and wishes to apply to this program, the applicant can be included if the recommending institution decides to choose the applicant as a candidate.

7 Applicant Who Has Already Been to Japan

Applicants who have been to Japan and caused problems in the past should not be recommended as candidates.

II SELECTION OUTLINE

The candidates who will be recommended to MEXT through Embassy of Japan and the Japanese Ministry of Foreign Affairs should be selected by the following method:

1 Method of Screening

Each recommending institution can choose the candidates freely but must examine accurately each applicants English ability, personality, reasons for applying, etc.
2 Criteria for Selection

Candidates must meet the following criteria along with the required qualifications.

a. Candidates must have excellent grades and have the ability to study in their desired field.

b. Candidates must be physically and mentally healthy.

(The students who had developed mental problems, malaria, tuberculosis, diabetes, hepatitis, etc., after coming to Japan have usually suffered from the same disease in the past. Please take this into consideration.)

c. Candidates must have a verifiable identity.

d. Candidates must be able to easily adapt to a new environment and a different culture.

e. Candidates must have a rich international cultural understanding.

f. Candidates must not have Japanese nationality and dual nationality between his/her country and Japan.

Do not recommend students who meet the following criteria:

• Students who are already enrolled in a Japanese university privately.

• Students who will obviously have difficulty in continuing their studies for a certain period of time after coming to Japan (For example, those who have to do military service, those who are pregnant, etc.).

III RECOMMENDATION OUTLINE

3. In the application material, candidates are requested to number the documents in the right upper corner. In case this is not done by the candidate, the recommending institution should number the document accordingly.

The nomination of candidates to MEXT should be made by the recommending institution before the date that will be specified by the Embassy of Japan. It is the responsibility of the recommending institution to ensure that all necessary documents listed above are provided.

*It is preferred that all the necessary documents for every candidate are submitted to the Embassy of Japan all together. In case part of the necessary documents are lacking for a candidate, and that need to be submitted later, make sure to confirm the deadline with the diplomatic mission. If the document is not submitted by the deadline, or cannot be expected to be ready, the case will be treated as inaccepted (not possible to nominate).*

### IV SELECTION AND ANNOUNCEMENT OF RESULT

1. **The First Screening**
The candidates who are recommended by each recommending institution are selected by the accepting institution. The selection will be based on the submitted documents and an interview will be held in the home country. If a person to person interview is impossible, it will be conducted by telephone. Accepting institutions will recommend candidates to the YLP committee established in MEXT, based on the results of the first selection.

2. **The Second Screening**
The YLP committee conducts the second selection.

3. **Announcement of Results**
The result of the second selection will be notified to each recommending institution through Embassy of Japan and the Japanese Ministry of Foreign Affairs.

4. **No Change of Assigned University**
A change of the assigned university will not be permitted. This must be explained in the result notification and during the orientation to all candidates.

5. **Waiting List**
When the number of successful candidates is less than the fixed number because of declination etc., it
is possible to select from fill-in successful candidates who were beforehand selected at the second screening of the YLP committee. However, please note that the YLP committee will not choose any more candidates as alternates after the second screening.

V PROCEDURES AFTER SELECTION

Many cases have occurred which selected students caused several problems after coming to Japan because of the lack of procedure knowledge or misunderstandings. Consider the following points:

1 Visa

Japanese Government Scholarship student must obtain a visa of College Student in their own country based on the instruction of the Minister of Foreign Affairs.

2 Airline Ticket

(1) Each grantee will be provided, according to his/her itinerary and route as designated by MEXT, with an economy class air ticket from the international airport closest to his/her place of residence to Narita International Airport (or following the itinerary normally used by the university where the grantee is placed). A change in the departing airport due to a change of address will not be permitted.

(2) The airline ticket sent by MEXT has a fixed date and flight number. Visiting relatives or friends, sightseeing, research or visits for study, etc., on the way to Japan is not permitted.

(3) The departure date and flight is fixed due to the hotels at a stopover location, flight transfer circumstances, arrival procedures, and residency arrangements. Therefore, changes of the ticket date made by the applicant in the home country will not be permitted.

(4) The airline ticket sent by MEXT to the grantee cannot be transferred to another person, nor can it be exchanged for money. Furthermore, MEXT is only responsible to supplying grantees with an airline ticket and will not pay for costs associated with excess baggages, airport taxes or insurance fees.

(5) A ticket will only be provided for the grantee. Family members or so who will accompany the grantee to Japan will not receive any funding.

3 Changes in the Date of Departure

(1) The flight fee will not be covered for any grantee who wishes to come before the designated date by MEXT without permission from the Ministry. There will be no refund after arrival. In such case the grantee will not be considered as a student of this program. Therefore, if students do come before the appointed date, the traveling arrangements, the entrance procedures and the living arrangements after arrival (all necessary procedures) will be the grantees responsibility.

(2) Departure date and flight changes will not be accepted. However, if any change is required due to personal illness, contact MEXT through Embassy of Japan. In such a case, the grantee must wait the MEXT's contact after all procedures including residence, etc., are fully prepared. In Japan, all courses will begin right after the arrival date. In case of any arrival delay, the applicants acceptance to this program might be revoked.

(3) If the travel agency demands payment for the difference of flight fee due to any departure or flight changes and if the grantee paid at the moment of departure, no refund will be given after arrival. Therefore, when any changes occur, always contact Japan to find out the necessary procedures before departure.

4 Withdrawal or Revocation of Acceptance

(1) If a grantee cannot arrive within the designated arrival period, it will be a great hindrance to the grantees education at the university as well as the research program. Therefore, the acceptance to this program will be revoked.

(2) If a grantee withdraws from the program after receiving the airline ticket, MEXT will collect it
through the travel agency.

(3) If recommending institutions send many grantees who withdraw from this program or return to their home country due to personal reasons in the middle of the program, the institutions participation itself will be reconsidered. Therefore, when recommending applicants, make sure applicants will not withdraw from this program for any reason.

5 Students Accompanied by Family Members

(1) If a grantee wishes to be accompanied by their spouse or any family member, they must contact the educational institution before departure. When the spouse will come together with the grantee, it must be informed that there will be no increase of the scholarship and traveling fee.

(2) All entrance procedures for the spouse will be completely different from those of the grantee. Therefore, make sure to obtain a visa for the spouse before departure.

6 Guidance before Departure Date

(1) All grantees studying abroad should research their foreign universities (partner university) education system. Grantees should also learn basic Japanese language necessary for daily life, Japanese climate, legal system and culture before departure.

(2) All grantees studying abroad should prepare appropriately $1,500 US for living expenses for the time being.

(3) If any personal problems occur after arrival, such matters should always be discussed with their supervising professors first and then the Foreign Exchange Office at the university should be contacted to.

(4) Recently, there are many students who return to their home country without permission. Some must return due to mental problems. A thorough interview and instruction before departure is very important to prevent this from happening. However, if this happens due to an accident while studying abroad, contacts are made to family members of the student and appropriate authorities in their home country based on the directions from Japan. All problems will be dealt with by having a close contact between Japan and the home country. All conditions and results concerning such matters should be reported.

I Basic Concepts

1. Each subject will deal with theories based not only on the experiences of the so-called modern Western World, but also on those concerned with the historical experiences of Japan and other non-Western countries. While analyzing commonalities in the modernization process along with its various possibilities, the courses seek to find the most desirable method for each country's modernization. (Comparative Approach)

2. Through modernization, our thoughts and ideas undergo deep transformations. However, the curriculum will not be concerned with modern ideas alone, but will also incorporate basic premises from the classical civilizations and ideas of the great thinkers. (Emphasis on liberal arts education aiming at self-relativization and critical thinking)

3. Going beyond instruction that is related to skills and knowledge, the curriculum will emphasize the fostering of students' ideas; identifying problems; and developing the ability to arrive at their own solutions. (Emphasis on discussion and self-study)

4. Through encounters with leading figures from all areas (including other promising young students), the curriculum aims to create human networks and further understanding about Japan.

5. By offering a broad range of courses, the curriculum encourages students to establish policymaking abilities required of national leaders who are knowledgeable in a broad range of areas.
