Annex

Hedging of exchange rate risk by Foreign Portfolio Investors (FPIs) under Voluntary Retention Route

**Purpose:** To hedge the exposure to exchange rate risk on account of investments made under the Voluntary Retention Route (VRR)

**Products:** Forwards, options, cost reduction structures and swaps with Rupee as one of the currencies

**Operational Guidelines, Terms and Conditions:**

i. Authorised dealers may offer derivative contracts using any of the aforementioned products to eligible users under VRR or to its central treasury (of the group and being a group entity). Authorised dealers shall ensure that:
   a. The FPI has an exposure to exchange rate risk on account of investments made under VRR.
   b. The notional and tenor of the contract does not exceed the value and tenor of the exposure.
   c. The same exposure has not been hedged with any other authorised dealer or on the exchange.
   d. In cases where the value of the exposure falls below the notional of the derivative, the derivative should be suitably adjusted unless such divergence has occurred on account of change in market value of the exposure, in which case the FPI may, at its discretion, continue with the derivative contract till its original maturity.

ii. Authorised dealers shall allow FPIs to freely cancel and rebook the derivative contracts.

iii. Authorised Dealer shall ensure that all payables incidental to the hedge are met by the FPI out of repatriable funds and/or inward remittance through normal banking channels.
